

# Know

## Where To Go

Lee Health has you covered. Save time and money by choosing the right care at the right place.

### Primary Care Physician

Your first call for all your health needs. Prevention, illness, tests, referrals, chronic disease treatment, and general concerns

### Emergency Room

Severe injuries, abdominal or chest pain, broken bones, head injury, traumatic accident, stroke, severe burns, bleeding, **life-altering emergencies** when time is absolutely critical!

### In-Home Care

For non-emergencies or everyday care, choose Lee TeleHealth, 24/7. Visit a primary care doctor online from your home through **LeeTeleHealth.org** Or schedule an in-home urgent care visit through **dispatchhealth.com**

### Lee Convenient Care

Quick care when your **minor injury, non-emergency or illness** cannot wait. Perfect for colds and flu, sprains, cuts, rashes, UTI, or when you can't get an appointment with your doctor.

**!** Remember to avoid the emergency room for cold and flu symptoms.
